de l'Éducation
(Canada)

THE COUNCIL OF MINISTERS OF EDUCATION, CANADA (CMEC) is an intergovernmental agency providing leadership in policy development, program administration, and research at the pan-Canadian and international levels. Located in the heart of Toronto (steps from the St. Clair subway), CMEC is seeking a:

BILINGUAL ANALYST, EDUCATION DATA AND RESEARCH (EDR)

Full-time, permanent

Current annual salary range: \$62,634–\$87,554, depending on experience and qualifications

CMEC offers excellent benefits and the opportunity to work in a dynamic, collegial, and bilingual environment that promotes professional development and career advancement.

Position summary:

The **Analyst** supports the work of the Education Data and Research unit. This role will appeal to individuals with strong data-analysis and policy-research skills, as well as excellent writing skills (to produce complex written reports for a range of stakeholders that includes ministers of education and the public) and the intellectual curiosity and rigour to monitor and investigate emerging developments in education in Canada.

Key qualifications

- Superior skills in French and English, both oral and written (candidates may be asked to provide writing samples)
- University degree in a field that emphasizes both qualitative and quantitative analysis or equivalent work experience
- Strong data-analysis skills, with experience in effective communication of data trends and insights
- Strong research skills (both qualitative and quantitative), combined with a keen interest in developing a breadth and depth of knowledge in education
- Knowledge of government relations, structures, and policy, and/or experience in the education system
- Knowledge of Excel and the ability to produce statistical tables
- Exceptionally detail-oriented, with strong organizational skills and the ability to meet critical deadlines (project-management experience is desirable)
- Highly collaborative, with strong interpersonal and networking skills to develop key contacts across Canada (needed to acquire and share information)

Preference will be given to candidates with one or more of the following:

- Experience with survey development and data collection
- Experience with SAS and SPSS
- Experience with data visualization tools such as Power BI
